AUGUST, OCTOBER, DECEMBER

AND SUPPLEMENT No. 1 TO VOLUME 42 SEPTEMBER, 1953

U. OF I.
LIBRARY

PUBLISHED BY

THE WISTAR INSTITUTE OF ANATOMY AND BIOLOGY
PHILADELPHIA, PA.

CONTENTS

No. 1 AUGUST 1953

B. W. SHUMWAY, M. SABLE AND H. R. BIERMAN. The electrical potentials produced by the chick embryo during its incubation period. Six figures . . .	1
FRITIOF S. SJÖSTRAND. The ultrastructure of the outer segments of rods and cones of the eye as revealed by the electron microscope. Twelve figures . .	15
FRITIOF S. SJÖSTRAND. The ultrastructure of the inner segments of the retinal rods of the guinea pig eye as revealed by electron microscopy. Eleven figures	45
P. D. BOYER. The activation by K^+ and occurrence of pyruvic phosphoferase in different species. One figure	71
H. P. JENERICK AND R. W. GERARD. Membrane potential and threshold of single muscle fibers. Eight figures	79
ROBERT E. TAYLOR. The contractile process is not associated with potential changes. Seven figures	103
EUGENE BELL. The origin and nature of granules found in macrophages of the white mouse following intravenous injection of Thorotrast. Four figures	125
J. WOODLAND HASTINGS, WILLIAM D. McELROY AND JANE COULOMBRE. The effect of oxygen upon the immobilization reaction in firefly luminescence. Five figures	137
LOUIS B. FLEXNER, ELSTON L. BELKNAP, JR., AND JOSEFA B. FLEXNER. Biochemical and physiological differentiation during morphogenesis. XVI. Cytochrome oxidase, succinic dehydrogenase and succinoxidase in the developing cerebral cortex and liver of the fetal guinea pig. Six figures . .	151

No. 2 OCTOBER 1953

KENNETH PAIGEN AND BERWIND N. KAUFMANN. Effects of X-irradiation on amount and composition of nucleic acids in liver. Two figures	163
A. K. PARPART AND JAMES W. GREEN. The effect of glucose and pH upon potassium loss from rabbit red cells. Four figures	179

JAMES W. GREEN AND A. K. PARPART. The effect of metabolic poisons on potassium loss from rabbit red cells. Four figures	191
JAMES HILLIER AND JOSEPH F. HOFFMAN. On the ultrastructure of the plasma membrane as determined by the electron microscope. Thirty-four figures	203
WILLIAM L. NASTUCK. The electrical activity of the muscle cell membrane at the neuro-muscular junction. Six figures	249
ALFRED S. SUSSMAN. The effect of ionizing radiations upon the respiration and oxidases of the potato tuber. Four figures	273
LEON H. SCHNEYER. The effects of potassium on bacterial luminescence intensity with reference to the temperature and pressure conditions. Three figures	285
ROBERT E. TAYLOR. Velocity of conduction in frog nerve as modified by applied currents, KCl and CaCl ₂ . Twelve figures	295
D. R. YOUNG AND S. F. COOK. The effect of helium on the gas exchange of mice as modified by body size and thyroid activity	319

No. 3 DECEMBER 1953

H. M. PATT, S. H. MAYER, R. L. STRAUBE AND E. M. JACKSON. Radiation dose reduction by cysteine. Six figures	327
A. L. BENNETT, F. WARE, JR., A. L. DUNN AND A. R. MCINTYRE. The normal membrane resting potential of mammalian skeletal muscle measured in vivo. Two figures	343
GEORGE E. DANIEL AND HELEN D. PARK. Glutathione and x-ray injury in Hydra and Paramecium	359
J. WENDELL BURGER AND CHEVES MCC. SMYTHE. The general form of circulation in the lobster, Homarus. Thirteen figures	369
KARLMAN WASSERMAN, E. LOVELL BECKER AND ALFRED P. FISHMAN. Transport of phenol red in the flounder renal tubule. One figure	385
A. GLENN RICHARDS, MARION B. CLAUSEN AND MYRTLE N. SMITH. Studies on arthropod cuticle. X. The asymmetrical penetration of water. Eight figures	395
ROBERT BALLENTINE. The biosynthesis of stable cobalto-proteins by plants. II. Interaction of iron and cobalt metabolism in neurospora crassa. Four figures	415
HOWARD P. JENERICK. Muscle membrane potential, resistance, and external potassium chloride. Six figures	427

CONTENTS

V

MORGAN HARRIS AND PHYLLIS B. KUTSKY. Utilization of added sugars by chick heart fibroblasts in dialyzed media. Five figures	449
SIDNEY SOLOWAY, J. H. WELSH AND A. K. SOLOMON. Studies on Ca^{45} transport in crayfish nerve. Two figures	471
ROY P. FORSTER. A comparative study of renal function in marine teleosts. Three figures	487

SUPPLEMENT No. 1 TO VOLUME 42, SEPTEMBER, 1953

P. F. SCHOLANDER, WALTER FLAGG, R. J. HOCK AND LAURENCE IRVING. Studies on the physiology of frozen plants and animals in the Arctic ...	1
--	---

INDEX

- A**CTIVATION by K^+ and occurrence of pyruvic phosphoferase in different species 71
- Arctic, studies on the physiology of frozen plants and animals in the Sup. 1
- Arthropod cuticle, studies on. Part X. 395
- B**ACTERIAL luminescence intensity with reference to temperature and pressure conditions, the effects of potassium on 285
- BALLENTINE, ROBERT. The biosynthesis of stable cobalto-proteins by plants. II. Interaction of iron and cobalt metabolism in *Neurospora crassa* 415
- BECKER, E. LOVELL. See Wasserman, Karlman
- BELKNAP, ELSTON L., JR. See Flexner, Louis B. 151
- BELL, EUGENE. The origin and nature of granules found in macrophages of the white mouse following intravenous injection of Thorotrast 125
- BENNETT, A. L., F. WARE, JR., A. L. DUNN AND A. R. MCINTYRE. The normal membrane resting potential of mammalian skeletal muscle in vivo 343
- BIERMAN, H. R. See Shumway, B. W. Biochemical and physiological differentiation during morphogenesis. XVI. Cytochrome oxidase, succinic dehydrogenase and succinoxidase in the developing cerebral cortex and liver of the fetal guinea pig 1
- Biosynthesis of stable cobalto-proteins by plants. II. Interaction of iron and cobalt metabolism in *Neurospora crassa* 415
- BOYER, P. D. The activation by K^+ and occurrence of pyruvic phosphoferase in different species 71
- BURGER, J. WENDELL AND CHEVES McC. SMYTHE. The general form of circulation in the lobster, *Homarus* 369
- CA**⁴⁵ transport in crayfish nerve, studies on 471
- Chick embryo during its incubation period, the electrical potentials produced by 1
- Chick heart fibroblasts in dialyzed media, utilization of added sugars by 449
- Circulation in the lobster, *Homarus*, the general form of 369
- CLAUSEN, MARION B. See Richards, A. Glenn 395
- Cobalto-proteins by plants, the biosynthesis of stable. Part II. 415
- Comparative study of renal function in marine teleosts, a 487
- Contractile process is not associated with potential changes, the 103
- COOK, S. F. See Young, D. R. 319
- COULOMBRE, JANE. See Hastings, J. Woodland 137
- Crayfish nerve, studies on Ca^{45} transport in 471
- Cuticle, studies on Arthropod. Part X. 395
- Cysteine, radiation dose reduction by 327
- D**ANIEL, GEORGE E., AND HELEN D. PARK. Glutathione and x-ray injury in *Hydra* and *Paramecium* 359
- Differentiation during morphogenesis, biochemical and physiological 151
- DUNN, A. L. See Bennett, A. L. 343
- E**FFECT of glucose and pH upon potassium loss from rabbit red cells 179
- Effect of helium on the gas exchange of mice as modified by body size and thyroid activity, the 319
- Effect of ionizing radiations upon the respiration and oxidases of the potato tuber, the 273
- Effect of metabolic poisons on potassium loss from rabbit red cells 191
- Effect of oxygen upon the immobilization reaction in firefly luminescence 137
- Effects of potassium on bacterial luminescence intensity with reference to the temperature and pressure conditions, the 285
- Effects of x-irradiation on amount and composition of nucleic acids in liver 163
- Electrical activity of the muscle cell membrane at the neuro-muscular junction, the 249
- Electrical potentials produced by the chick embryo during its incubation period 1
- Electron microscope, on the ultrastructure of the plasma membrane as determined by the 203
- External potassium chloride, muscle membrane potential, resistance, and 427
- Eye as revealed by the electron microscope, the ultrastructure of the outer segments of rods and cones of the 15
- F**IREFLY luminescence, the effect of oxygen upon the immobilization reaction in 137
- FISHMAN, ALFRED P. See Wasserman, Karlman 385
- FLAGG, WALTER. See Scholander, P. F. Sup. 1 1
- FLEXNER, JOSEFA B. See Flexner, Louis B. 151
- FLEXNER, LOUIS B., ELSTON L. BELKNAP, JR., AND JOSEFA B. FLEXNER. Biochemical and physiological differentiation during morphogenesis. XVI. Cytochrome oxidase, succinic dehydrogenase and succinoxidase in the developing cerebral cortex and liver of the fetal guinea pig 151

- Flounder renal tubule, transport of phenol red in the 385
- FORSTER, ROY P. A comparative study of renal function in marine teleosts 487
- Frog nerve as modified by applied currents KCl and CaCl₂, velocity of conduction in 295
- Frozen plants and animals in the arctic, studies on the physiology of. Sup. 1 1
- G**AS exchange of mice as modified by body size and thyroid activity, the effect of helium on the 319
- General form of circulation in the lobster, *Homarus*, the 369
- GERARD, R. W. See Jenerick, H. P. 79
- Glucose and pH upon potassium loss from rabbit red cells, the effect of Glutathione and x-ray injury in *Hydra* and *Paramecium* 179
- Granules found in macrophages of the white mouse following intravenous injection of Thorotrast 359
- GREEN, JAMES W., AND A. K. PARPART. The effect of metabolic poisons on potassium loss from rabbit red cells 125
- GREEN, JAMES W. See Parpart, A. K. 191
- Guinea pig eye as revealed by electron microscopy, the ultrastructure of the inner segments of the retinal rods of the 179
- H**ARRIS, MORGAN, AND PHYLLIS B. KUTSKY. Utilization of added sugars by chick heart fibroblasts in dialyzed media 449
- HASTINGS, J. WOODLAND, WILLIAM D. MCELROY AND JANE COULOMBRE. The effect of oxygen upon the immobilization reaction in firefly luminescence 137
- Helium on the gas exchange of mice as modified by body size and thyroid activity, the effect of 319
- HILLIER, JAMES, AND JOSEPH F. HOFFMAN. On the ultrastructure of the plasma membrane as determined by the electron microscope 203
- HOCK, R. J. See Scholander, P. F. Sup. 1 1
- HOFFMAN, JOSEPH. See Hillier, James 203
- Homarus*, the general form of circulation in the lobster, 369
- Hydra* and *Paramecium*, glutathione and x-ray injury in 359
- I**NNER segments of the retinal rods of the guinea pig eye as revealed by electron microscopy, the ultrastructure of the 45
- Ionizing radiations upon the respiration and oxidases of the potato tuber, the effect of 273
- IRVING, LAURENCE. See Scholander, P. F. Sup. 1 1
- J**ACKSON, E. M. See Patt, H. M. 327
- JENERICK, H. P., AND R. W. GERARD. Membrane potential and threshold of single muscle fibers 79
- JENERICK, HOWARD P. Muscle membrane potential, resistance, and external potassium chloride 427
- K**⁺ and occurrence of pyruvic phospho-ferase in different species, the activation by 71
- KAUFMANN, BERWIND N. See Paigen, Kenneth 163
- KCl and CaCl₂, velocity of conduction in frog nerve as modified by applied currents 295
- KUTSKY, PHYLLIS B. See Harris, Morgan 449
- L**IVER, effects of x-irradiation on amount and composition of nucleic acids in 163
- Lobster, *Homarus*, the general form of circulation in the 369
- M**AMMALIAN skeletal muscle measured in vivo, the normal membrane resting potential of 343
- Marine teleosts, a comparative study of renal function in 487
- MAYER, S. H. See Patt, H. M. 327
- Membrane potential and threshold of single muscle fibers 79
- Membrane potential, resistance, and external potassium chloride, muscle 427
- Membrane resting potential of mammalian skeletal muscle measured in vivo 343
- Metabolic poisons on potassium loss from rabbit red cells, the effect of MCELROY, WILLIAM D. See Hastings, J. Woodland 137
- MCINTYRE, A. R. See Bennett, A. L. 343
- Mice as modified by body size and thyroid activity, the effect of helium on the gas exchange of 319
- Morphogenesis, biochemical and physiological differentiation during 151
- Muscle cell membrane at the neuromuscular junction, the electrical activity of the 249
- Muscle fibers, membrane potential and threshold of single 79
- Muscle membrane potential, resistance, and external potassium chloride 427
- N**ASTUK, WILLIAM L. The electrical activity of the muscle cell membrane at the neuromuscular junction 249
- Neuromuscular junction, the electrical activity of the muscle cell membrane at the 249
- Normal membrane resting potential of mammalian skeletal muscle measured in vivo, the 343
- Nucleic acids in liver, effects of x-irradiation on amount and composition of 163
- O**RIGIN and nature of granules found in macrophages of the white mouse following intravenous injection of Thorotrast, the 125
- Outer segments of rods and cones of the eye as revealed by the electron microscope, the ultrastructure of the 15
- Oxidases of the potato tuber, the effect of ionizing radiations upon the respiration and 273
- Oxygen upon the immobilization reaction in firefly luminescence, the effect of 137
